

Pathway 2 Homework Ideas Summer 2019

Our topic this term is all about exploring the living world around us whilst developing our communication and independence. Your child can experience and participate with this at home in lots of different ways

Science Focused activities

- Helping in the garden, digging, drawing in the soil, helping to name and identify plants and trees and their different parts.
- Helping to look after animals/ pets- brushing them, washing them, feeding them
- To plant some seeds and water them daily
- To pick and press flowers

Independence

- Washing my own hands
- Brushing my own teeth
- Dressing and undressing myself
- Getting my own drink/ snacks
- Helping to cook and prepare food
-

Maths- experiencing and joining in with everyday counting activities in the house

- Giving out cups and plates at dinner table- 1 for each person
- Helping to match and pair socks
- Handling coins and paying for items in shops
- To sort items In house

Communication

- making choices in the house or supermarket
- requesting items (using symbols, pictures or the actual object
- reading with your child
- giving simple one or two key word instructions in during daily routines – e.g get the spoon, get the wooden spoon

Please contact your class teacher if you require any specific resources or supports to help your child
